

**RESTORE CLEANING THINNERS****1. DESCRIPTION**

- **Restore Cleaning Thinners** is a powerful solvent based cleaner which is water rinse-able

2. TECHNICAL DATA

Product Code Colour Generic type	RES 111 Clear Solvent detergent cleaner
Packaging Flashpoint S.G (Weight)	500 ml 12°C – Highly flammable 0.840

3. FEATURES

- For cleaning of paintbrushes and rollers
- General cleaning and degreasing of garage floors and driveway paving
- Ideal for cleaning oils and grime build in kitchens, baths, ceramic tile areas, drains, etc
- **Restore Cleaning Thinners** is recommended for the removal of tar and waxes from floors, car bodies, etc.
- An effective cleaner for removing dirt and paint spots on most clothing fabric and carpets
- Suitable for degreasing other cold surfaces such as car engines, factory machinery and agricultural equipment.
- A powerful solvent based cleaner that can be easily rinsed with water..

4. APPLICATION

- **For cleaning brushes and rollers:** Pour a small amount of **Restore Cleaning Thinners** into a suitable clean container. Work it thoroughly into the brush or roller. Then rinse brush or roller well with water until water is no longer milky. Hang brush or roller up to dry. Allow the mixture remaining in the container to separate. The clear top layer may be re-used. If the enamel has dried completely on the brush, it should first be soaked in Restore Paint Stripper, allowing the paint to soften and blister and then further cleaned with **Restore Cleaning Thinners**.
- **For heavy duty degreaser (e.g. uncoated garage floors and drive-ways):** Swab **Restore Cleaning Thinners** onto the soiled areas using a bristle brush or broom and work the solution well into the surface. Leave for approximately 15 minutes then flush off thoroughly with water while scrubbing with the brush or broom. Heavy deposits and deeply penetrated oil stains may require repeated applications. In such cases allow surface to dry before re-applying **Restore Cleaning Thinners**
- **Areas to be painted:** Ensure that a water break-free surface is attained and rinse thoroughly until the water wash is clean and no longer milky.
- **For clothing fabric and carpets:** swab **Restore Cleaning Thinners** liberally onto the soiled area using a cloth or sponge, dabbing and rubbing gently. Apply until the soil mark has disappeared. Apply clean water in a similar way until all the **Restore Cleaning Thinners** has been washed out of the fabric. Rub dry gently.

5. LIMITATION

- Do not use plastic, painted areas and other surfaces that may be attacked by solvents. If unsure apply **Restore Cleaning Thinners** in an inconspicuous spot to check if substrate is attacked.
- After use always ensure that all traces of **Restore Cleaning Thinners** are rinsed off.
- When cleaning fabric **Restore Cleaning Thinners** will not damage the fabric. Do not keep the product in contact with the fabric for longer than absolutely necessary.
- If using **Restore Cleaning Thinners** to degrease an engine, note that it may remove grease from bearings and soften plastic parts

6. PRECAUTIONS

- Always keep paint out reach of children
- Ensure good ventilation during application and drying
- If accidental contact with skin should occur, wash immediately with soap and water or a recognised skin cleaner
- Take care to avoid contact with eyes. In case of contact, immediately rinse the eyes with plenty of water and seek medical attention.
- Harmful if swallowed. Seek medical attention and do not induce vomiting
- Do not smoke during use
- Flammable. Keep away from heat, flame and sparks.
- Refer to Material Safety Data Sheet for complete information.

Environmental Health & Safety Information

DANGER! CORROSIVE! WILL CAUSE EYE BURNS AND PERMANENT TISSUE DAMAGE.

HARMFUL IF SWALLOWED. CONTAINS POTASSIUM HYDROXIDE. AVOID CONTACT WITH SKIN.

May cause permanent skin damage and severe respiratory system irritation. Use with adequate ventilation. Wear protective clothing, acid resistant rubber gloves and eye goggles. Avoid breathing spray mist. If properly used, a respirator may offer additional protection. FIRST AID: Eye and skin contact: In case of eye or skin contact, flush immediately with water for 20 minutes. Get medical attention if irritation or symptoms of overexposure persist. If inhaled, move to fresh air. If swallowed, DO NOT induce vomiting. Get medical attention immediately. Give water to dilute material in stomach. Never give anything by mouth to an unconscious person.

CAUTION: KEEP OUT OF REACH OF CHILDREN AND ANIMALS – DO NOT TAKE INTERNALLY.

Refer to Material Safety Data Sheet for additional health and safety information.

IN CASE OF FIRE: Use foam, CO₂, dry chemical, or water fog.

SPILL – Absorb with inert material and dispose of as specified under **Thinning/Clean-up**.

DISCLAIMER

The technical information contained in this document are given in good faith and are meant to be used as a guideline by the specifier or user. Whilst we are confident about the quality of our products, we cannot accept any liability for the incorrect use or application of our products. Surface preparation forms an integral part of the scope of works and it is expected that the highest standards are maintained during surface preparation and application, to ensure that our products perform as intended. Always ensure to use the same product batch numbers, refrain from doing spot touch-ups and paint surfaces from corner to corner to prevent colour and sheen variance.
